

Sand Creek Organics

Dieter Bay and Elisabeth Guentert Bay, Grand Forks BC, www.dimutara/sand-creek-organics/

Certified Organic by NOOA Nr. 04-228

In Grand Forks, and specially here on the south exposed hillside of Sand Creek, we have an ideal climate for garlic. We grow every year 150-200 lb Garlic. Most of it is Russian Red and a small amount is Music.

Russian Red is famous for its flavour and has the typical red striped skin. Our garlic is big and firm and can be stored easily into spring. We plant and harvest it at “root” days according to the bio-dynamic planet constellation, which increases the quality, growth and storage capacity.
